

Protected Lands and Critical Linkages: 10-County Bay Area

Critical habitat linkages connect large blocks of open lands, habitats and rare landscapes, many of which are comprised of already protected areas. Over 20,000 acres of lands identified as Critical Linkages in the 10-County Bay Area have been protected since 2010 (denoted by purple within Critical Linkages). Data: BPAD 2013; Bay Area Critical Linkages 2013.
